| Short Description:  | Safe travel tips for this year's holiday season include getting eligible people vaccinated   |
| Long Description:   | Getting vaccinated, if you haven't already done so, could be the safest thing to do to prevent COVID-19 infection this holiday season. For those already vaccinated and still concerned about flying, driving to your destination may be a good alternative. For those too young to be vaccinated, doctors say keep in mind they are most at risk from adult family members who may not be vaccinated. |
