

Title: The Flu Shot and Vaccine Exhaustion

Type:	Interstitial/Promo
Subject(s):	Coronavirus, Health and Mental Health
Project Contact:	Name: Frances Hernandez Company: South Florida PBS Email: news@southfloridapbs.org
Original Broadcast/Publish Date:	11/22/2021
Runtime:	00:01:00
Main Asset File Size:	0.59 GB
Short Description:	The debate over COVID Vaccines in children may have caused some parents to avoid flu shots
Long Description:	The COVID vaccine debate may have caused a kind of vaccine exhaustion among parents that makes them less likely to get their kids a flu shot. But the flu is more dangerous in kids than COVID, and a flu shot offers the best protection against the side effects of influenza. [SOURCE: Mayo Clinic]
